Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Tuesday 25 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Showers for some, but turning more settled.

This Evening and Tonight:
Rain across southwest England clearing. A band of showers over northern England moving southwards into the Midlands, whilst patchy rain and low cloud arrives across parts of Scotland and northeast England. Dry with clear spells elsewhere, and turning chilly.

Wednesday:
Low cloud and patchy rain in the northeast will be replaced by scattered heavy showers inland. Mostly dry with sunny spells elsewhere and feeling warmer than recently.

Outlook for Thursday to Saturday:
Many places dry with sunny spells. Some rain likely to affect Northern Ireland later on Thursday then the Northwest during Friday. Warmer than recently and feeling pleasant in sunshine.
